EDUCATION

UNIVERSITAS MUHAMMADIYAH SUKABUMI **Sukabumi, Indonesia**

Bachelor of Computer Science – GPA: 3.50/4.00 *April 2025*

Undergraduate Thesis: Web-Based Implementation of the A* (A-Star) Algorithm for Nearest Boarding House Search from Universitas Muhammadiyah Sukabumi

Skilvul – MSIB Program (Kampus Merdeka) **Jakarta, Indonesia**

Additional Training in Back-End Development *August – December 2022*

Final Project & Case Study: ASEAN Youth Forum – Aspirations Platform

TECHNICAL SKILLS & PROJECTS

Programming Languages: JavaScript, NoSQL, PHP, SQL, HTML/CSS

Tools & Platforms: Node.js, Express.js, Postman, Thunder Client, MongoDB, Railway

Design: Figma, Draw.io, Microsoft Visio

Foreign Languages: English – Intermediate Level

Back-End Final Project – ASEAN Youth Forum

- Developed the final project for the ASEAN Youth Forum university search and discussion platform as part of the Kampus Merdeka (MSIB) program organized in collaboration with Skilvul.
- Served as the primary contributor in gathering and structuring university profile datasets stored in a MongoDB database.
- Contributed to the development of back-end APIs using Node.js (Express.js) for core application functionalities, performing end-to-end API testing via Postman and Thunder Client.
- Deployed the application on Railway and collaborated with team members to resolve technical challenges concerning authentication and CRUD implementation.

LICENSES & CERTIFICATIONS

Kampus Merdeka Innovation Challenge – Backend Development **December 2022**

- Completed the MSIB 2022 curriculum through the ASEAN Youth Forum case study project, a platform dedicated to university discovery and youth discussions.
- Engineered back-end services by designing API requests consumed by the front-end using Node.js, and successfully deployed the server infrastructure to Railway.

Web Development Certificate – SoloLearn **October 2024**

- Earned a certification upon completing web development coursework focused on HTML5, CSS, and JavaScript fundamentals.
- Completed within 9 days through dedicated self-paced learning.

Learn Basic JavaScript Programming – Dicoding **October 2025**

- Mastered core JavaScript fundamentals (syntax, functions, data structures, OOP, functional programming, asynchronous processes) for Node.js-based application development in alignment with AWS-validated standards.

Learn Basic Cloud and Gen AI on AWS – Dicoding **December 2025**

- Gained foundational knowledge of AWS Cloud core services (compute, networking, storage, security, pricing) alongside introductory concepts in artificial intelligence, machine learning, and generative AI.

Learn Basic Web Programming – Dicoding **January 2026**

- Acquired proficiency in foundational HTML and CSS, including semantic HTML markup and responsive layout structuring using CSS Flexbox.

Learn to Build Front-End Web for Beginners – Dicoding **January 2026**

- Built interactive front-end web applications employing DOM/BOM manipulation, event handling, and client-side Web Storage.

Learn Basic AI – Dicoding **January 2026**

- Studied foundational concepts of Artificial Intelligence, data requirements for AI, machine learning pipelines, and deep learning use cases.

Learn Back-End for Beginners with JavaScript – Dicoding **February 2026**

- Developed RESTful APIs using Node.js and Hapi framework, deployed back-end services to Amazon EC2, and completed the Bookshelf API project with full CRUD capabilities.

LEADERSHIP & ORGANIZATIONAL ACTIVITIES

Community Outreach at Muslimin Sukmawinata Orphanage **Sukabumi, Indonesia**

Organizing Committee Chairperson *June 2021*

- Led and organized a community charity program at the Muslimin Sukmawinata Orphanage, managing end-to-end planning from preparatory stages to execution.
- Spearheaded fundraising initiatives through product sales and authored formal sponsorship proposals submitted to local institutions and the Mayor's Office.
- Delegated sales assignments across committee members, produced donation promotional materials, and successfully raised more than IDR 2,000,000.
- Coordinated closely with orphanage administrators to ensure the event proceeded smoothly and achieved all program goals.
